

INFORMATION ABOUT EDITION

“ODES’KIJ MEDIČNIJ ŽURNAL” (“Odesa Medical Journal”)

Publication information

“Odes’kij medičnij žurnal” (“Odesa Medical Journal”) was founded in 1926. During a few years it was highly appreciated by scientists. The works of the famous scientists had been published there. But then, at the start of 30-s, the publication of the Journal was stopped. It was renewed only in 1997, and very soon the Journal won its authority again and took a proper place among other scientific editions of the country.

The founder and publisher of “Odesa Medical Journal” is the Odesa National Medical University.

The editor-in-chief of the Journal since the time of its renewal is the academician of the NAMS of Ukraine, the Ukraine State Prize Winner V. M. Zaporozhan. The members of the editorial board and editorial council are the world-known scientists.

“Odesa Medical Journal” is included in the List of specialized scientific publications of Ukraine of category “A” (branch – medical sciences, specialties – 221 “Dentistry”, 222 “Medicine”, 226 «Pharmacy, industrial pharmacy», 228 “Pediatrics” (Order of the Ministry of Education and Science of Ukraine No. 1721 dated 10.12.2024, appendix 6; available at <https://mon.gov.ua/static-objects/mon/uploads/public/675/c49/0fe/675c490fea3a6035511617.pdf>).

About 90 articles are published in the Journal annually.

It comes to the most known libraries of the country, large scientific centers, some educational establishments. Its release is highly appraised outside of the country: the Journal is represented in Index Copernicus, Ulrich’s Periodicals Directory, BASE-Search, Google Academy, “Scientific Periodics of Ukraine”, “Scientific Periodics of Ukraine”. The Scopus Content Selection & Advisory Board (CSAB) has reviewed application of the Odesa Medical Journal and approved it for coverage in Scopus database 25.10.2023. In August 2022, the scientific publication “Odesa Medical Journal” received a three-month scholarship from the “Support to Ukrainian Editorial Staff” (SUES – Support to Ukrainian Editorial Staff) project. SUES is an initiative of European institutions and organizations, the purpose of which is to support the scientific community of Ukraine.

The Journal is distributed by subscription. The Journal can be subscribed at any subscription point. Subscription index – 48717.

ISSN 2226-2008

Frequency of the Journal: The Journal appears bimonthly.

DOI 10.54229/2226-2008, 10.32782/2226-2008 (since N 3 (181) 2022)

THE MANUAL OF ARTICLE STYLE FOR “ODES’KIJ MEDIČNIJ ŽURNAL” (“ODESA MEDICAL JOURNAL”)

1. “Odes’kij medičnij žurnal” (“Odesa Medical Journal”) publishes theoretical and review articles, which cover important achievements of science, results of completed original clinical and experimental researches, basic results of dissertations on medicine, dentistry and pharmacy, and also memorial materials.

2. Problem and original articles with total volume of 7–15 pages, reviews – up to 12–20 pages.

3. Articles, which have been already published in other editions or were submitted for publication to some editions at the same time, as well as the works which are a remake of the articles published before and do not contain new scientific material or new scientific comprehension of already known material are not submitted.

4. The following materials are published in the Journal:

a) results of original researches concerning main directions of development of medical, dental and pharmaceutical sciences;

b) works on fundamental and applied problems in 221 – dentistry, 222 – medicine, 226 – pharmacy, industrial pharmacy, 228 – pediatrics;

– genetics and applied aspects of medical genetics;

– biophysical and morphofunctional analysis of cells of an organism at different types of pathology;

– works on modern cellular technologies;

– modern elaborations in the field of general and clinical pharmacology and pharmacy;

– achievements in the field of study of etiology, pathogenesis and diagnostics of modern diseases;

– prophylaxis of diseases, inoculation, prevention of especially dangerous diseases;

c) c) experimental manuscripts, reviews, clinical cases, novel methods and technologies on current issues of dentistry, medicine, pediatrics, and pharmacy;

d) information, chronicle, anniversaries, materials on history of science and medicine, pharmacy, dentistry, reviews.

5. The author sends to the editorial office an on-line version of the article with a scan of the first page and signatures of all authors. By their signatures the authors guarantee that the article meets all the requirements of the manual of the article style for “Odesa Medical Journal”, experimental and clinical researches have been executed according to the international ethical norms of scientific researches, and also they give the publisher a right for publication of

the article in the Journal, placing it and its materials on the Journal's site and in other sources.

6. An article is accompanied with a scan of (1) letter to the editorial staff, a vised signature of the chief and the seal of the establishment where the work was done, (2) information about the authors (with each author's contribution statement detailing his/her participation in the work), (3) the declaration of originality of the text of the scientific article and for the home authors also (4) by the expert inference, that authorizes the open publication.

7. If used in the article materials are intellectual property of some organizations and have not been published before, an author should get permission for their publication from each of these organizations and send it together with the article.

8. The text is printed with 1.5-spacing throughout the text on a standard paper (width of fields: on the left, above and below by 2 cm, on the right – 1 cm) in Arial (Arial Cyr) or Times (Times Cyr) 14 points. The page of the text should contain no more than 30 lines.

9. The language of the articles is Ukrainian and English.

10. The material of the article should be placed in the following order:

a) UDC index – on the left correspondingly to key words;

b) initials and the last name of the author (authors), authors' ORCID ID;

c) the title of the article;

d) a complete name of the establishment (establishments) where the work was done, city, country. If there are several authors and they work in different institutions, it is necessary to indicate in Arabic numerals a digital superscript corresponding to the institution where each of the authors works; and the name of the institution must be indicated with the appropriate numerical designation, e-mail, phone number;

e) two abstracts – in Ukrainian up to 800 printing letters (0.45 page) and in English up to 1800 printing letters (1 page). Ukrainian abstracts after the following scheme: UDC index, initials and the last name of author (authors), title of the article, text of the abstract, key words (no more than five);

f) statement of a problem in general and its connection with important scientific and practical tasks;

g) formulation of the aim of the article (raising a task);

h) research materials and methods with descriptions of research methods, number and distribution of the research objects. Compliance with the principles of the World Medical Association Code of Ethics (Helsinki Declaration) for human research or the principles of the EU Directive 2010/10/63 EU on animal experiments should be noted;

i) presentation of the main material of the study with a full justification of the obtained scientific results;

j) conclusions from the given research and perspectives of subsequent works in this direction;

k) references in the citation order or after the alphabet order.

11. The abstract in English should shortly reproduce the structure of the article, including introduction, purpose and task, methods, results, conclusions, key words. Initials and the last name of author (authors) are given in transliteration,

the title of the article must be translated into English. The key words and other terms of the article should correspond to generally used medical terms cited in dictionaries. One should not use slang and abbreviations which are not in general use.

12. The chemical and mathematical formulas are inprinted or put down. The structural formulas are designed as figures. In formulas there are marked out: small and large letters (large ones by two hyphens from below, small ones – by two hyphens from above by a lead pencil); the Latin letters are underlined with a dark blue pencil; Greek ones – with a red pencil; subscript and superscript letters – by an arc line with a lead pencil.

13. The International System of Units (SI) should be used in the articles.

14. Figures and signatures to them are made separately. On the back side of every figure by a lead pencil one should indicate its number and title of the articles, and if necessary to note a top and bottom.

15. The tables should be placed on separate pages, be numbered and titled. The marginal notes should indicate the place of figures and tables. The information given in tables and figures must not be duplicated.

16. The references must contain the list of works for the last 10 years and only sometimes – more early publications. In the original works they quote no more than 20 sources, in the reviews – about 60. Every work in the references should be referred in the manuscript. The literature in the list is ordered according to reference to it in the text of the article, which is given in square brackets, or after the alphabet. If the works of one and the same author are presented, they take place after the chronological order. The references shouldn't contain works which have not been published yet.

17. The references should be arranged in Latin alphabet according to rules below in English or transliterated according to the National Library of Medicine (NLM) standard or Vancouver style.

For articles:

Povorozniuk VV, Balatska NI, Klymovytskiy FV, Synenkiy OV. Actual nutrition, vitamin D deficiency and bone mineral density in the adult population of different regions of Ukraine. *Trauma*. 2012;13(4):12–16. (In Ukrainian). Available from: <http://www.mif-ua.com/archive/article/34633>

Scott F, Mamtani R, Brensinger C, et al. The risk of a second non-melanoma skin cancer with thiopurine and anti-TNF use in inflammatory bowel disease. *Am J Gastroenterol*. 2014;109:S473. DOI: 10.1016/S0016-5085(14)60282-1.

The authors' surnames and the title of the Journal are given in Latin in transliteration, the title of the article is translated into English. Transliteration can be done automatically at the site: <http://ukrlit.org/transliteratsiia>. In the bibliographic reference of each source it is necessary to specify all authors, separating from each other a comma and a space. Initials are indicated after the surname, punctuation marks are not separated. The full names of the authors are not given. In the case of 7 or more authors, the reference "et al." after the first three surnames. If the authors are 6 or less, "et al." not used. After the list of authors a point and a space is put. The title of the publication is given in English in full, without abbreviations. After the title of the article a

point and a space are put. The title of the periodical is given in English or transliterated with the symbols of the Latin alphabet. It is allowed to cite the registered abbreviations of the title of the periodical. Usually this form of writing is accepted by the publication itself, it can be found on the website of the Journal, publisher, on the ISSN website, or it is necessary to give its full name without abbreviation. The names of domestic Journals cannot be abbreviated. After the title of the publication a point and a space are put. Information about the publication: the year of publication is separated by a semicolon, then the volume's number is given, if necessary, in parentheses indicate the number of the Journal, after the colon follows the range of pages. For an article that is not published in English, the language of the original is indicated in parentheses at the end of the generated link. Additional information about the article – DOI number («DOI: <https://doi.org/...>»), PubMed ID, source access mode, etc. – is provided at the end of the link as hyperlink. Search form for DOI: Crossrefsystem.

For materials of conferences:

Sulkowski M, Krishnan P, Tripathi R. Effect of baseline resistance-associated variants on SVR with the 3D regimen plus RBV. In: *Conference on Retroviruses and Opportunistic Infections (CROI)*. 2016 Feb 22–25; Boston, MA.

Bakeyeva LY, Saprunova VB, Pilipenko DI. Ultrastructure of mitochondria in endogenous oxidative stress, mitochondrial antioxidant protective effect SkQ1. In: *Proceeding of the IV congress of the Russian Society of Biochemistry and Molecular Biology*. 2008 May 11–15; Novosibirsk, Russian Federation. Novosibirsk; 2008. (in Russian).

The last names of authors are given in transliteration, title of the work – in translation into English. The main thing in descriptions of conferences is the name of conference in the language of original (is given in transliteration if there is not its English title), indicated by italic. Translation of the title into English is given in brackets. Imprint (place of holding a conference, place of publication, year, pages) – in English.

For monographs and other books:

Mann DL, Zipes DP, Libby P, Bonow RO. Braunwald's heart disease: a textbook of cardiovascular medicine. Philadelphia: Saunders; 2014. 2040 p.

Lutsik AD, Detyuk YS, Lutsik MD, authors; Panasyuk YN, editor. *Lektyny v gistokhimii [Lektins in histochemistry]*. Lviv: Vyscha shkola; 1989. 144 p. (in Russian).

The last names of authors are given in transliteration, title of the book – in transliteration with translated into English in the square brackets. Place of publication, year of publication, total number of pages – in English, name of publishing house – in transliteration.

Please, note: in the references in the Roman alphabet it is necessary to indicate all the authors of the literary source, which you refer to. It should also not use punctuation: // and –. The name of the source (Journal, conference, book) is always indicated by italic.

At the end of the literature source, the digital identifier DOI must be indicated (if it is present). The observance of these rules will provide the true representation of quoted sources in the majority of citation databases.

18. Abbreviations of words and word combinations are given according to State Standards of Ukraine 3582-97 and National State Standard 7.12-93.

Those who have no access to the full content of NSS can find it at the site of the Odesa Medical University, the bibliography examples style is presented. Available from http://libblog.odmu.edu.ua/p/blog-page_8912.html.

19. The printed materials executed with the use of computer technologies are added by computer type-setting materials and graphic in digital form.

The text can be done in the following formats: Word for Windows, RTF (Rich Text Format).

The graphic material should be submitted in separate files of the XLS, TIFF, WMF or CDR formats. Resolution of line originals (the graphics, schemes) of the TIFF formats must be 300–600 dpi B&W, halftone (pictures, etc.) – 200–300 dpi Gray Scale (256 gradations of gray). Width of graphic originals – 5.5, 11.5 and 17.5 cm.

20. Articles are subjected to scientific reviewing, as a result of which the decision is taken whether to publish the work or not. The rejected articles are not returned and are not resubmitted.

21. The Journal reserves the right for editorial correcting, which does not distort its contents, or returns an article to the author for correction of revealed errors.

22. The date of article's coming to the Journal is the day when the editorial office receives the final variant of the text.

23. After the editorial board confirms that the article has been submitted, requisite payment details are provided. The cost of publication is UAH 2,000 (up to 12 pages). Each additional page is paid separately UAH 40. The publication fee covers costs of proofreading and editing, page-planning and on-line version of the Journal. At the request the author of the article can order a printed copy of the Journal. The cost of a printed copy is UAH 800, which must be paid in addition to the publication fee. The author sends confirmation of the payment (a scanned check or its photo) to e-mail omj@onmedu.od.ua.

24. "Odesa Medical Journal" contacts:

Valikhovsky Lane, 2, Odesa National Medical University Rectorate, Odesa, 65082, Ukraine;

25. The articles that fail to meet these requirements are not admitted. Reprinting of articles is possible only with the written consent of the editors and with reference to the Journal.

The average waiting time of publication (from the day of submission to the day of publication) is 2–3 months (depending on the actual number of publications submitted by authors to a definite issue).

DECLARATION on Originality of the Text of the Scientific Article

I(we) (*name, first name and patrymonic of the author or authors (all authors of the scientific article are indicated)*) declare that in (*the name of the scientific article*) the available text, obtained as a result of own researches (clinical investigations) is original, improper quotations, borrowings of other text, or information given in the section 32 and 69 of the Law of Ukraine “On Higher Education” **absent**.

I(we) declare that my scientific study is executed independently, and has no plagiarism elements.

All borrowings from the printing and electronic sources, as well as from defended before scientific studies, candidate’s and doctoral dissertations have the proper references.

I’m(we are) acquainted with the current regulation about detecting academic plagiarism, according to which the detecting of plagiarism is the reason for the refusal of scientific article publication in the scientific journals of the Odesa National Medical University.

Date

Signature(s)

Notes: 1. The signatures of all authors of scientific article, which are to be certified by establishment where they work, must be in Declaration.

2. If authors of the article are employees of different establishments, Declaration must be provided from every establishment.

MANUSCRIPTS REVIEWING ORDER

Scientific articles submitted to “Odes’kij medičnij žurnal” (“Odesa Medical Journal”) need reviewing. The task of reviewing is the most objective assessment of the content of the scientific article, its compliance with the requirements of the Journal, analysis of its advantages and disadvantages, making specific recommendations for its improvement. The executive secretary of the Journal conducts a preliminary analysis of the articles received by the editors, their relevance to the subject and specialization of the Journal. The reviewers are appointed by the editor-in-chief of the Journal. In some cases, by the decision of the editor-in-chief, the appointment of the reviewer (s) may be entrusted to a member of the editorial board or decided at the meeting of the editorial board.

The reviewers of the Journal are experienced specialists – doctors of sciences, members of the editorial board and editorial council of the Journal. If necessary the editors invite external experts for cooperation. The reviewers must meet the qualification requirements in accordance with the Order of the Ministry of Education and Science of Ukraine dated 15.01.2018 No 32. The scientific articles submitted to the Journal are sent for review to one reviewer, if necessary – to two reviewers. For all articles submitted to the Journal, the level of their uniqueness is determined using the programming and computing suite Strikeplagiarism.com. The reviews should estimate if the article corresponds to the subject of the Journal and its title, actuality and scientific level, advantages and disadvantages, correspondence of the article style to the editorial requirements. The conclusion about advisability of publication is drawn at the end.

Reviewing is conducted confidentially by the principle of double “blind” reviewing (neither the author nor the reviewer know each other’s names). The review is provided to the author of the article at his request without a signa-

ture, indication of the name, position and place of work of the reviewer. In some cases, at the request of the reviewer and in agreement with the editorial board of the Journal, the interaction of the reviewer and the author may take place in an open mode. This practice is used only if open interaction will improve the presentation of the peer-reviewed work. Usually the reviewer concludes that the article can be published within 14 days.

If the reviewer recommends to correct or complete the article, the editorial staff sends the review text to the author for inserting proper changes in. The articles submitted to authors for correction should be returned to the editors no later than seven days after receipt. Proofreaders are not sent to the authors, but if this does not disturb the schedule of the Journal, it is possible to provide a preprint in which it is permissible to correct only typing and factual errors.

The author, whose article was not submitted to the publication, is sent a reasonable refuse on his demand. The manuscript is not returned.

If the author does not agree with a reviewer’s point of view, he can give him a reasonable answer.

In case of necessity an additional reading of manuscript by another specialist can be carried out on agreement with the author.

A final decision about the publication of the article and its terms is made by the editorial board.

Sometimes in case of a positive review the article can be published after the editor-in-chief’s or vice-editor-in-chief’s decision.

After approval of the article publication the editorial staff informs the author about it with indicating the term of publication.

Originals of reviews are kept in the editorial during 1 year.
