   h) formulation of the aim of the article (raising a task);
   i) statement of the basic material with complete substantiation of obtained scientific results;
   j) conclusions from the given research and perspectives of subsequent works in this direction;
   k) references;

l) two abstracts — in Russian up to 800 printing letters (0.45 page) and in English up to 1800 printing letters (1 page) after the following scheme: UDC index, initials and the last name of author (authors), title of the article, text of the abstract, key words (no more than five).

11. The abstract in English should shortly reproduce the structure of the article, including introduction, purpose and task, methods, results, conclusions, key words. Initials and the last name of author (authors) are given in transliteration, the title of the article must be translated into English. The key words and other terms of the article should correspond to generally used medical terms cited in dictionaries. One should not use slang and abbreviations which are not in general use.

12. The chemical and mathematical formulas are in-printed or put down. The structural formulas are designed as figures. In formulas there are marked out: small and large letters (large ones by two hyphens from below, small ones — by two hyphens from above by a lead pencil); the Latin letters are underlined with a dark blue pen; Greek ones — with a red pencil; superscript letters — by an arc line with a lead pencil.

13. The International System of Units (SI) should be used in the articles.

14. Figures (no more than two) and signatures to them are made separately. On the back side of every figure by a lead pencil one should indicate its number and title of the articles, and if necessary to note a top and bottom.

15. The tables (no more than three) should be placed on separate pages, be numbered and titled. The marginal notes should indicate the place of figures and tables. The information given in tables and figures must not be duplicated.

16. The references must contain the list of works for the last 5 years and only sometimes — more early publications. In the original works they quote no more than 10 sources, in the reviews — about 30. Every work in the literature list should be referred in the manuscript. The literature in the list is ordered according to reference to it in the text of the article, which is given in the square brackets, or after the alphabet. If the works of one and the same author are presented, they take place after the chronological order. The references shouldn’t contain works, which have not been published yet.

17. The list is given in duplicate for every copy of the article, which are published separately one from another. The first copy is designed according to DSTU GOST 7.1:2006. The other one — fully duplicates the first one, but by the Roman alphabet after the schemes given below.

For articles:

For materials of conferences:

The last names of authors are given in transliteration, title of the work — in translation into English. The main thing in descriptions of conferences is the name of conference in the language of original (is given in transliteration if there is not its English name), indicated by italic. Translation of the name into English is given in brackets. Imprint (place of holding a conference, place of publication, year, pages) — in English.

For monographs and other books:

The last names of authors are given in transliteration, title of the book — in italic in transliteration with translated into English in the square brackets. Place of publication, year of publication, total number of pages — English, name of publishing house — in transliteration.

Please note: in the references in the Roman alphabet it is necessary to indicate all the authors of the literary source, which you refer to (DSTU GOST 7.1:2006 does not provide it). Also one should not use the signs of division: // and — , which are provided by DSTU GOST 7.1:2006. The name of the source (Journal, conference, book) is always indicated by italic.

The observance of these rules will provide the true representation of quoted sources in the majority of abstract scientometrical databases.

18. Abbreviations of words and word combinations are given according to DSTU 3582-97 and GOST 7.12-93. For those who have no access to the complete DSTU text, there are examples of bibliographic records registration on the site of the Odessa Medical University. Access by link: http://omdu.edu.ua/index.php?v=1179.

19. Information about authors, which contains academic status and degree, the last name, name and patronymic (in a full form), place of work and occupation, address for correspondence, telephones and faxes numbers, e-mail address are added to the article on a separate sheet of paper in the language of original and English.

20. The published materials executed with the use of computer technologies, are added by materials of computer type-setting and graphic on a diskette (CD, DVD).

The text can be done in the following formats: Word for Windows, RTF (Reach Text Format).
Graphic material should be submitted in separate files of the XLS, TIFF, WMF or CDR formats. Resolution of stroke originals (the graphics, schemes) of the TIFF formats must be 300–600 dpi B&W, semitone (pictures, etc.) — 200–300 dpi Gray Scale (256 gradations of gray). Width of graphic originals — 5.5, 11.5 and 17.5 cm.
